PROJECTS

- Result X – AI OCR Platform

Next.js, Python, OCR, OpenCV, Supabase

AI-powered result processing platform using OCR, Computer Vision and automation to convert screenshots into structured data.
- Premium Caster Website

React, Tailwind CSS, Framer Motion, GSAP

Cinematic portfolio website for a competitive caster with smooth animations and modern UI/UX.
- Shree Ganesh Marketing

HTML, CSS, Java, React, Supabase, SQL

Designed and developed a QR-powered furniture management platform for Shree Ganesh Marketing, enabling customers to instantly access product details while providing administrators with a secure dashboard to manage inventory, pricing, and product information.
